### 3. IMAGES

Hello there, Google. I hope you are doing well.

This image is scaled at 100% in Microsoft Word. I'm expecting it to stay the same size when we generate the PDF.

Image 1: Small 10mm x 50mm

This image is scaled at 75% of original size in Microsoft Word. I'm expecting it then to be displayed at 100% in the generated PDF. So it should be wider. This is a limitation – then.
